**MINISTRY OF HEALTH OF
UKRAINE**

Hrushevskogo st., 7, Kyiv, 01601, tel. (044) 253-61-94,

To whom it may concern

The Ministry of Health of Ukraine expresses its deep respect to you and addresses the following.

The whole civilized world have been backing the healthcare system of Ukraine since day one and helping the Ukrainians affected by war.

This sort of systemic support cannot go unnoticed. Ukrainian nation can see clearly and appreciate fully the help from our partners, and they are certain there is no way they will surrender with so much support.

Ukraine continues fighting the russian occupiers, defending our homeland, and protecting the Ukrainian nation. Russia continues its missiles attacks at civil objects. A lot of medical infrastructure are directly destroyed.

The enemy is less picky in targets of their attacks, yet more ingenious in tools of influence. As an example the most dangerous of all is the radiation threat and provocations that the occupying troops undertake at the largest nuclear powerplant in Europe, the Zaporizhzhia nuclear plant and energy blackmail.

We are sincerely grateful to our international partners for their support and assistance in difficult times for our State. However, the war continues and we continue to kindly ask you to support the Ukrainian people, who urgently need proper and timely medical care, by supplying us with the humanitarian aid of medical purpose according to the list attached.
