

With the rising demand for healthcare and proliferation of technology across Asia, Asia Pacific is set to become the 2nd largest region for medtech industry by 2023 (Source: Mckinsey). Despite the growth opportunities, companies have voiced challenges in navigating the region, due to the fragmented landscape. With our progressive public health system, developed infrastructure and conducive business environment, we are well positioned to help companies, like yours, to tap on the region's growth from Singapore.

Join us to learn more about the opportunities in the Medtech industry in the Asia Pacific. Gain insights from our guest speakers on key topics such as navigating regulations/policies and optimising supply chain activities that will help you achieve greater market access and efficiency in the region. Experts will also share about how companies have also think about how to optimise their supply chain in the region to reap additional cost and time benefits.
